Schoolwide Title I in the elementary will be financially supported by federal Title and Title Reallocated Funds. A full-time Title I teacher is currently employed in the district with the federal Title IA, IIA, IVA annual funds used to cover the expenditures associated with providing the Title program. Additional funds are not required to implement a schoolwide program. Also, no additional staff are required to be hired. The school is simply in pursuit of receiving schoolwide Title I in the elementary as some students that could benefit from the Title I program are not receiving permission from their parents to register in the Title program.
